

Be Aware!

Cyber Criminals are using Fake Job Scams to Target Applicants' Personally Identifiable Information. Scammers advertise jobs the same way Rita Staffing and other legitimate employers do: Online, in ads, on social media and various job sites.

They promise you a job, but what they want is **your money** and **your personal information**.

1. Rita Staffing **Never** uses Telegram app to communicate with anyone.
2. **Never** wire transfer money to a prospective employer.
3. **Never** send money for equipment, office supplies etc. in order to get job and work.
4. Legitimate companies will **never** ask for personal identifiable or bank information BEFORE hiring employees.
5. If the job seems too good to be true, it probably is.
